Sourabh Semalty

Software Developer

Profile

I am skilled software development Engineer who can handle both front-end and back-end development. With expertise in Node.js, Typescript, HTML, CSS, JavaScript, PHP, MySQL, and React, I bring a diverse skillset to the table. I am detail-oriented, collaborative, and committed to delivering high-quality code on time and on budget.

Employment History

Web developer at Machprinciple, DEHRADUN

December 2020 — June 2022

As an intern, I gained invaluable experience in identifying areas for modification in existing programs and developing solutions as assigned. I researched, designed, implemented, and managed various tasks while resolving problems and ensuring optimal program functionality.

Software developer engineer 1 at ConvertCart, Dehradun

July 2022

I have also been tasked with optimizing MySQL databases and code in various projects. This has allowed me to develop a diverse skill set and a deep understanding of the intricacies involved in software development. I am always eager to take on new challenges and deliver high-quality work.

Education

IT (Diploma), Government polytechnic pithuwala

BTECH CSE, Doon Group of Institutions

Internships

Web developer intern at Digibyte techonologies, Dehradun

May 2020 — November 2020

"I had the opportunity to work on a live website to create a Pahadi e-commerce website, which provided me with ample learning experiences both inside and outside of coding. Working on this project, I was able to meet the client's requirements while adapting to their needs, which helped me gain valuable experience. Overall
